

# Healthcare Infection Society

Driving change to prevent healthcare associated infections

## Our vision

A world in which HCAs have been reduced to the lowest possible level

## Our mission

To provide healthcare professionals with the information, evidence and skills they need to prevent and control HCAs

## Who we are

We are **interdisciplinary experts** in the prevention and control of infections

We **inspire** generations of professionals to tackle healthcare-associated infection through training, education and collaboration

We **support** everyone working in IPC to collaborate to reduce healthcare-associated infections, protecting patients and each other

We **pioneer** world-leading science and drive effective practice

We **prevent** healthcare-associated infections globally by sharing research, evidence and best practice

## Our objectives

### Multi-disciplinary Engagement

Grow and support our membership, nurture an inclusive community and deliver resources that meet the community's needs

### Education and Training

Equip all IPC professionals with the knowledge and skills necessary to effectively prevent infections to protect patients and each other

### Global Collaboration and Outreach

Strengthen global networks and partnerships to enhance the impact of IPC efforts worldwide

### Advance Research and Support Best Practice and Guidelines in IPC

Foster cutting-edge research, publish robust guidelines and support innovations that reduce the incidence of HCAs

### Advocacy and Influence

Influence healthcare and research policy and practice to advocate for all in the field of IPC
